decrease comprising administering to a patient

The claims readable on the elected species are claims 11, 13, 15 and 25.

The Restriction Requirement concerning the election of a species is respectfully traversed on the ground that it is not a species requirement of the type set forth in MPEP 803.02 entitled "MARKUSH CLAIMS." It is respectfully submitted that the practice set forth therein and in the decisions cited in MPEP 803.02 are the proper practice to be applied in the present case and to the extent that the Restriction Requirement is not consistent therewith, it is respectfully traversed.

If, however, the Restriction Requirement is maintained, then taking into consideration that there are generic claims, it is respectfully requested that the provisions of 37 CFR 1.141(a) and the procedure set forth in MPEP 806.04(d) be followed, which provide that once a claim that is determined to be generic is allowed, all the claims drawn to species, in addition to the elected species, which include all the limitations of the generic claim, should be allowed.

Reconsideration is respectfully requested.
